IDEMIA

The 3GPP CT WG6 nominates Heiko Kruse as Chairman

 # CONNECTIVITY

POSTED ON 10.13.17

We are very proud to announce that our colleague Heiko Kruse, Senior Standardization Manager ... nan of the **3GPP CT WG6**.

This group within **3GPP** is the one in charge of the establishment of standards for smart card applications including:

- ⟫ Subscriber Identity Module (SIM) which is used by 2G systems,
- ⟫ USIM (Universal Subscriber Identity Module) which is used by 3GPP systems,
- ⟫ ISIM (IM Services Identity Module) with the exception of the security algorithms

Since 1997 Heiko is representing IDEMIA in various standardisation bodies, including ETSI, GSMA, Java Card Forum and **3GPP**. He is also vice-chairman of ETSI Smart Card Platform and Requirements (ETSI SCP and ETSI SCP REQ). His 20-year experience in the field of telecommunications and Smart cards will be a key asset in the definition of new standards for the upcoming 5G standard. We are confident that Heiko can be beneficial for the ongoing evolution of standards.
