

Safran Identity & Security showcases solutions for trusted connectivity and digital identities at GSMA MWC

Safran Identity & Security invites its visitors to the world's largest event for the mobile industry, the GSMA Mobile World Congress, to experience how trusted digital identities make life safer and easier in an increasingly connected world.

PAYMENT CONNECTIVITY IDENTITY

POSTED ON 02.23.17

Given the strong and rapid increase in the number of connected objects (nearly 21 billion devices by 2020, according to Gartner), one highlight will be the launch of "IoThrive," the first end-to-end range of **embedded security solutions** for the **Internet of Things**.

Furthermore, visitors will see at the stand:

- ➔ **Biometrics for devices:** face, fingerprint and iris SDKs to enable registration, identification and authentication on mobile devices
- ➔ **Innovative payment** form factors: match on card solutions with fingerprint and facial biometrics
- ➔ **Flexible Connectivity** and **IoT:** secure embedded solutions for cellular and non-cellular networks including eSIM, eSE and remote SIM provisioning
- ➔ **Mobile Identity:** strong digital identity solutions (including Mobile Connect) for banks and telecom operators

Visit Safran Identity & Security at the Mobile World Congress (February 27 – March 2, 2017 / Hall 6 / Stand G 30). More info: morpho.com/mwc

OT-Morpho - is now IDEMIA, the global leader in trusted identities for an increasingly digital world, with the ambition to empower citizens and consumers alike to interact, pay, connect, travel and vote in ways that are now possible in a connected environment.

Securing our identity has become mission critical in the world we live in today. By standing for Augmented Identity, we reinvent the way we think, produce, use and protect this asset, whether for individuals or for objects. We ensure privacy and trust as well as guarantee secure, authenticated and verifiable transactions for international clients from Financial, Telecom, Identity, Security and IoT sectors.

With close to €3bn in revenues, IDEMIA is the result of the merger between OT (Oberthur Technologies) and Safran Identity & Security (Morpho). This new company counts 14,000 employees of more than 80 nationalities and serves clients in 180 countries.
