

Safran Identity & Security obtains the “France Cybersecurity” Label for its D3S legally binding archiving service

POSTED ON 05.30.16

Safran Identity & Security obtained last May 26th, during the BPIFRANCE INNO Generation event, the **France Cybersecurity label** for its D3S secure archiving solution.

D3S ensures the data integrity preservation for probative value and regulatory traceability purposes. Certified by ANSSI, scalable and highly available, D3S addresses the needs of the most demanding users such as financial institutions, aviation industry and governments.
