

Augmented Connectivity Live Summit 2021

The future of connectivity is here

CONNECTIVITY

POSTED ON 10.04.21

Committed to making the world more connected and secure, IDEMIA organized the live Augmented Connectivity summit on September 28, 2021.

This 45-minute digital event included keynotes, exclusive interviews, testimonials, and panels with renowned experts that was structured around 4 themes:

- What the future holds for private sectors & the telecom industry
- 5G and subscriber privacy
- Tech advancement and growing business opportunities in IoT
- Leveraging digital services to build augmented customer experiences

Leaders from AT&T, Orange, KORE Wireless, and Kudelski IoT joined the stage with IDEMIA experts for talks on how IoT, 5G and Industry 4.0 will build a better world for both consumers and citizens alike.
