JUSTICE & PUBLIC SAFETY

POSTED ON 07.11.16

Starting today, residents of Utah will be receiving the brand new, highly secure **driver's license** when they renew or apply for a new driver's license or **ID card**. This change stems from a new five-year contract between the Utah DLD and MorphoTrust USA to revamp **Utah's driver's license and identification (ID) cards** with an updated look-and-feel, including new enhanced security features. The licenses and IDs feature encoded elements such as security backgrounds and barcodes that will **reduce driver license fraud and identity theft**.

The safety and security of Utah citizens is of utmost importance to us. This new card, which our long-standing partner MorphoTrust has developed and is manufacturing, includes sophisticated features that will allow us to reduce driver's license fraud and identity theft.

Christopher Caras Driver License Division Director

MorphoTrust is delighted to continue to grow our nearly 50-year partnership with the Utah Driver License Division. Our mission is to secure, protect and simplify the lives of the American people and we are privileged to be able to work with the great state of Utah to provide them the enhanced personalized security features and new "look and feel" for their driver's license they required.

Bob Eckel, President and CEO of MorphoTrust USA

About IDEMIA - OT-Morpho is now IDEMIA, the global leader in Augmented Identity for an increasingly digital world, with the ambition to empower citizens and consumers alike to interact, pay, connect, travel and vote in ways that are now possible in a connected environment.

Securing our identity has become mission critical in the world we live in today. By standing for Augmented Identity, we reinvent the way we think, produce, use and protect this asset, whether for individuals or for objects. We ensure privacy and trust as well as guarantee secure, authenticated and verifiable transactions for international clients from Financial, Telecom, Identity, Public Security and IoT sectors.

OT (Oberthur Technologies) and Safran Identity & Security (Morpho) have joined forces to form IDEMIA. With close to \$3 billion in revenues and 14,000 employees around the world, IDEMIA serves clients in 180 countries.
