

OT-Morpho joins LoRa Alliance

OT-Morpho, a world leader in digital security and identification technologies, announces it has joined the LoRaTM Alliance as an official Adopter Member. OT-Morpho delivers solutions to enhance the secure authentication of LoRa-based Low Power Wide Area Networks (LPWAN).

CONNECTIVITY

POSTED ON 07.19.17

*Our membership in LoRa ideally complements our global **Internet of Things** (IoT) business strategy. The **IoT** enables an explosion of possibilities for connected objects, ranging from smart home and healthcare to industry applications. **IoT** device manufacturers, platform and cloud service providers can easily implement our solutions and thus expand their secure **IoT** ecosystem.*

Yves Portalier, OT-Morpho, Vice President and General Manager, Telecom, at Morpho

OT-Morpho offers a range of solutions to secure the connectivity to LoRa-based **IoT** networks including both secure elements and services, providing customers with appropriate security levels according to the needs of their products and how sensitive the use case may be.

The LoRa Alliance is an open, non-profit association initiated by industry leaders to standardize Low Power Wide Area Networks (LPWANs) being deployed around the world to enable **IoT**, machine-to-machine (M2M), smart-city and industrial applications. Alliance members collaborate to drive the global success of the LoRa protocol (LoRaWAN) by sharing knowledge and experience to guarantee interoperability among operators by using one open global standard.

OT-Morpho - is now IDEMIA, the global leader in trusted identities for an increasingly digital world, with the ambition to empower citizens and consumers alike to interact, pay, connect, travel and vote in ways that are now possible in a connected environment.

Securing our identity has become mission critical in the world we live in today. By standing for Augmented Identity, we reinvent the way we think, produce, use and protect this asset, whether for individuals or for objects. We ensure privacy and trust as well as guarantee secure, authenticated and verifiable transactions for international clients from Financial, Telecom, Identity, Security and IoT sectors.

With close to €3bn in revenues, IDEMIA is the result of the merger between OT (Oberthur Technologies) and Safran Identity & Security (Morpho). This new company counts 14,000 employees of more than 80 nationalities and serves clients in 180 countries.
